## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: The prior art shows either individually, or as a combination, a hinge apparatus for a door comprising a tubular housing, cam shaft, cylindrical guide tube, guide pin, piston rod, piston, and check valve (Chen, Morris, Seaman et al, Daul). However, the prior art fails to show each of the above elements in combination further where the came shaft includes first and second spiral shaped guide holes, the cylindrical guide tube including first and second vertical guide holes, and a guide pin combined with the first and second vertical guide holes and the first and second ascending and descending spiral guide holes and further including means for adjusting the amount of oil flowing from an upper chamber to a lower chamber in addition to a check valve in the piston. More specifically, the prior art does not show the combination of each of the claimed elements in the claimed relationship with each other or the hydraulic control rod or control pipe as claimed.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael J. Kyle whose telephone number is 571-272-7057. The examiner can normally be reached on Monday - Friday, 8:30 am - 5:00 pm.
